MEMORANDUM OF AGREEMENT FOR THE RELEASE OF GOVERNMENT-OWNED OR DEVELOPED SOFTWARE

1. Distribution of FLare Aerodynamic Modeling Environment (FLAME) and Tri-Service Flare Database (TFD) is performed by DSIAC on behalf of NSWC, Crane Division.
2. The requestor acknowledges that FLAME and TFD are not to be used for any purpose other than the contract or CRADA number specified in the model request.
3. The requestor agrees that they will not release or transfer FLAME and TFD to anyone without prior written approval from the DSIAC.
4. The requestor agrees to return FLAME and TFD to DSIAC upon completion of the work specified in the model request. The requestor may be eligible to retain FLAME and TFD if there is additional DoD work, including IRAD, or another DoD contract for which FLAME and TFD is required. Contact the DSIAC for additional guidance.
5. The requestor agrees that they may only use FLAME and TFD within 3 years of a completed, signed, and valid MOA and within an approved contract's period of performance.
6. The requestor agrees that FLAME and TFD, or any modified version thereof, shall not be published for profit or in any other manner offered for sale to the DoD and shall not be sold or provided to any other activity or firm. If FLAME or TFD is modified using DoD funds, the DoD maintains unlimited rights to the modifications, regardless of if FLAME or TFD is the basis of, or incidental to, a contract. FLAME and TFD, and modified versions thereof, may be used in the performance of a contract with the DoD but no development charges may be assessed as part of its use.
7. The requestor acknowledges that the DoD is neither liable nor responsible for maintenance, updates, or correction of any defects in FLAME or TFD. Suspected software defects, improvement suggestions, or other change requests should be provided to the DSIAC or recorded directly in the DSIAC Software Change Request (SCR) database for submission to the respective FLAME and TFD Model Manager and Configuration Control Board (CCB).

8. The requestor acknowledges that FLAME and TFD contains sensitive technology and information that is classified **SECRET//NOFORN** and that any information released to the requestor, in whole or in part, shall be controlled and safeguarded in accordance with the appropriate NISPOM security regulations.
9. The requestor acknowledges that the information received is intended for domestic use only. **The requested information shall not be used for or made available to foreign governments nor used in any contract with a foreign government without the written approval of the appropriate U.S. Government agencies.** Contact the DSIAC for further guidance.
